

# ***SUN Behavioral in Partnership with Nemeth Counseling and Consultation invite you to attend our complimentary October Continuing Education Course***

## **LOSS & GRIEF:**

## **CLINICAL PERSPECTIVES AND INTERVENTIONS**

### **THE PROGRAM**

Grief is a universal experience, but also one of the most misunderstood. It can take many different forms, each with its own unique challenges. Meanwhile, myths and misconceptions often leave clients confused and alienated – just when they need to feel connected the most. To help clinicians and other professionals navigate this powerful but complicated terrain, SUN Behavioral, in partnership with Nemeth Counseling and Consultation, is pleased to offer this training: a wide-ranging look at the most influential ideas and current approaches in bereavement and in working with clients enduring a loss.

Topic areas will include:

- Differentiating grief from other clinical conditions
- Exploring loss and grief as components of *all* change
- Identifying Prolonged Grief Disorder and Traumatic Bereavement
- Addressing secondary losses and potential triggers
- Engaging with bereaved parents and children
- *and more*
